Project Pitch

Team Coordinate
Purpose and Context

* students get takeout and want to coordinate currently do by texting, phone calls
* need system to coordinate orders
* system would automatically place the order goal is to make the process easier, quicker and more efficient
Key Concepts

* the key concepts are:
  * restaurants
  * takeout orders
  * student
the app may be complex and getting it to connect to the restaurant’s servers may take a lot of work

risk of not being able to make a responsive interface; mitigation is using JQuery

risk of system not performing quickly enough; mitigation is optimizing code

the mobile component of the app may be hard to implement

not clear how to store the number of menus that will be required
